

“Trans Western Polymers selected TIDE Industrial Park for its Eastern Regional production facility in 1997. We built a 40,000 SF building and started our operations with 11 employees.

Since then we have grown to over 140,000 SF and are now staffed with over 250 employees. This is certainly a testimonial to our success in a decade of our operations at this site.

The success comes from the dedicated employees in our management team and our production personnel. We could not have done this without their excellent work ethic and the strong support from the State and Local government.

We plan to continue to grow and expand our operations here in the years ahead. We are extremely pleased to be a part of TIDE Park and enjoy the community we are in.

**Joon Bai, CEO/Chairman, Trans Western Polymers”**
